

## COVENANT OF MAYORS TERRITORIAL COORDINATORS' COMMITMENT STATEMENT Balearic Islands Government

### WHEREAS

The European Commission launched the Covenant of Mayors in 2008 to endorse and support the efforts deployed by local authorities in the implementation of sustainable energy and climate policies.

The Covenant of Mayors for Climate and Energy is a bottom-up movement that brings together municipalities of all sizes which voluntarily commit to implement EU climate and energy objectives through an integrated approach to climate change mitigation and adaptation.

Regional and sub-national authorities share the responsibility for climate action with authorities at the local level.

The European Commission recognises them as important allies to support Covenant of Mayors signatories to meet their commitments and increase the impact of the Covenant.
